

PLEASE DO NOT ALLOW LPFM TO HAVE PRIORITY OVER K-LOVE!

There is a FM translator service that serves my listening area known as K-LOVE. It is very important to me and my family. We know that we can always turn to this station and we won't hear any song or commentary that is offensive.

If K-LOVE were replaced by an LPFM broadcaster I would not have the assurance that it would be a benefit to me and my family. I already know that I can count on K-LOVE having the kind of programming that I can feel confident in allowing my children to listen to.

Other local stations that offer similar kinds of programming have had much difficulty staying in business because of the high costs. K-LOVE is able to offer this programming at a much larger level so that it is possible for smaller communities to keep this programming without the constant fear that they will have to shut down because of financial concerns.
